# EXPLANATION & CHAT GUIDE

The logic of alerts and explanations in the LoveBridge system can work multiple ways. You will use it **with self alert and screened tables**. You only alert your own calls. Both opponents can ask for more information, and they will always know the same details about bids.

## Alerting

When you want to alert your call, you have multiple options:

You can **tap in the input field** and write your explanation here.

You can **tap on the alert button** so your opponent knows it's artificial.

You can **tap the envelope button** and, after placing your call, the bridge keyboard will pop up. Here you can type your explanation. Note: Your call will be alerted as well.

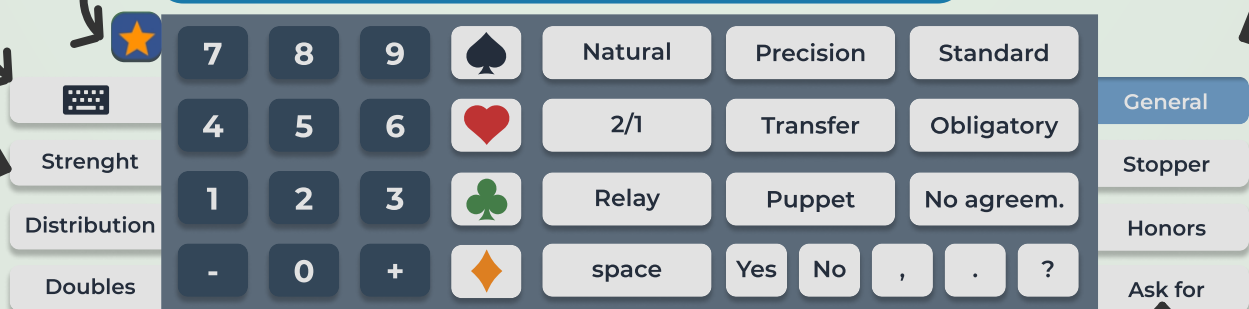

## Bridge keyboard

Common bridge expressions are organized in seven categories to help you type bridge related messages with only a few taps.

You can type any other message using a traditional keyboard.

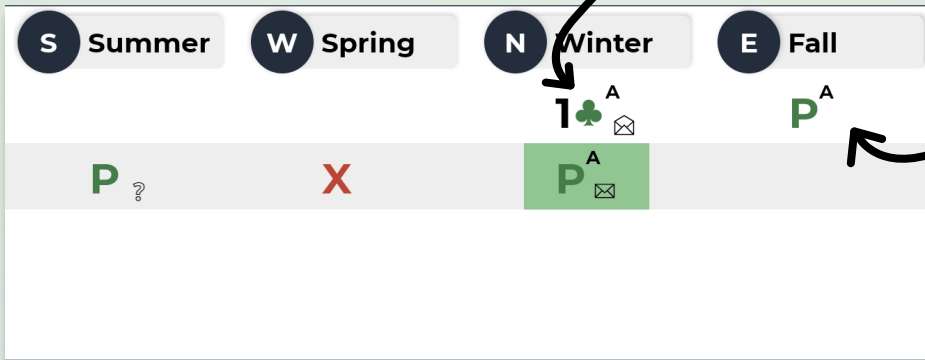

Your favorite explanations will be saved here.

Multiple words in every category

# Bidding Panel

The closed envelope shows that you have an **unread message**.
