

## RealBridge\_Operator\_FAQs

### — How do I log on to RealBridge?

Go to the [Operator Start Page for RealBridge](#); if it isn't already open on your Chromebook, there will be a bookmark to it in the Vugraph folder on your Chromebook. Click on the link. Enter your name and click Join Session.

### — How do I get the first board?

Click on the button circled in red here. If that button isn't there, it means the RealBridge Vugraph session hasn't started yet so you can't get the board.

### — Should I do anything at the end of the round?

Yes - at the end of each round, please minimize your screen, so in case you aren't there or aren't worrying about it, a person who accidentally looks at your screen won't see the cards for the first board of the next round, which will appear automatically when that round starts.

### — Can I show played cards?

Yes, click on the button circled here.

## RealBridge\_Operator\_FAQs

### — **Can I make comments for the spectators?**

Yes, now you can. Just type into the chat box and the spectators will see your comment at the same time they see the board & trick you are showing when you make the comment.

### — **How do I get someone to come help me?**

Try waving your hand. If that doesn't work, you can't send a message from your live table; you will have to click on the LEAVE button at the bottom right of your screen, then on the DIRECTOR button in the lobby to summon help. To return to your table, just click on it.

## RealBridge\_Operator\_FAQs

— I typed and nothing happened. What is wrong?

Make sure the keyboard icon (blue arrow) doesn't have a line through it
